Prezzi iva esclusa

Notes:

A Rear not adjustable

B Coilover kit: When the adjustable springseat is set too low according to the TÜV-regulations, all guarantees will be withdrawn

C Due to differences in the fabrication process (thickness), it might be possible that the right drive shaft will touch the car when the car has been lowered. If so, a different stabiliser bar can be used. .

E Only for vehicles with U-bracket attachment at the rear shock absorber

G Not for 4x4

L Stabiliser bar separately available

M Kit contains parts for front axle only

N Height of the rear axle must be adjusted by serialy available torsion bars.

* Attention! The mentioned lowering is an indication as tested in a specific circumstance with a specific vehicle.

Variables such as vehicle options
can give a different result.
